

The New Era of Autonomous Security

True 24/7 Aerial Presence. The world's first fully intelligent robot system with zero downtime. We detect, log, intercept, and de-escalate threats autonomously. While your staff does something better.

RESPONSE

Absolute

COVERAGE

All-Weather Aerial Presence

Never Grounded.

True 24/7 uptime requires industrial resilience. Our IP55-rated hot-swap system operates in rain, snow, and 12 m/s winds. If an intruder can be there, so can we.

Active Interception

Stop Threats, Don't Just Watch.

AI Agents autonomously track intruders and use spotlights + loudspeakers to verbally confront and de-escalate.

Sovereign & Insightful

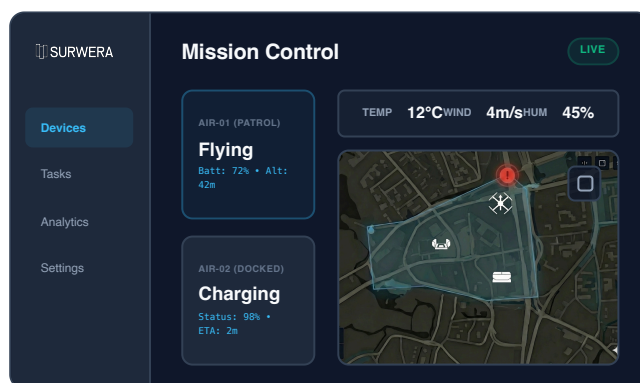

Your Data, Your Metrics.

Built on a cloud-native Kubernetes core. Deploys on your private cloud or ours, fully GDPR compliant with deep analytics and automatic reporting.

Advanced Sensor Fusion

Integrated thermal and 56x hybrid zoom sensors detect heat signatures in absolute darkness. AI agents autonomously track and intercept threats.

Global Command Platform

Control anywhere, integrate everywhere. Browser-based fleet management with automated scheduling, deep analytics, and real-time control. Alerts to phone, email or API.

EASA STS-02 Compliant

C6 Class Certified
